

Fierce Tenacity

Mongoose - the bluegrass of choice for today's active lifestyle. It is quick to form an attractive, healthy turf that is capable of tackling the most challenging of environments.

In the 2001 data of the National Turfgrass Evaluation Program (NTEP), Mongoose was the quickest to establish under the harsh Utah environment. Mongoose also leads the way in drought tolerance, showing quick recovery to dry conditions.

Featuring a vibrant deep green color, fine leaf texture, and outstanding overall density, Mongoose has also shown to be one of the highest rated bluegrass varieties for traction/shear strength ratings in the 2003 NTEP report.

Be it extreme weather or extreme sports, Mongoose Kentucky Bluegrass is more than ready for the challenge. Bring it on!

Resistance Rating	S	LR	MR	R	HR
Brown Patch					•
Necrotic Ring Spot					•
Anthrachnose				•	
Pink Snow Mold					•
Billbugs					•

S=Suceptible LR=Low Resistance MR=Medium Resistance
R=Resistance HR=High Resistance

Mongoose can withstand mowing heights to ½ inch.*
